Electric "acqua" grill on closed cabinet. Side panels, bottom and back made of stainless steel. Top made of AISI 304 thickness 20/10. Designed for flush alignment. Reversible stainless steel cooking grille. Forward sloping for cooking fatty meats, with 5 mm elements in direct contact and drip tray for collecting grease. Flat for cooking fish and vegetables with circular elements. Side and rear splashback. Grease collection by an upper front extractable tray. An extractable drawer located under the heating zone contains water whose evaporation ensures grilled food will be tender. Two independent cooking zones. Heating by means of "Incoloy 800" armored heating elements" located under the grille. Temperature control by means of thermostat. Lamp on control panel to indicate oven heating activation. Special design knobs to avoid water penetration in the control panel. Adjustable feet made of stainless steel. IPX5 protection rating. Electric power supply VAC 400 3N 50÷60 Hz - 15 kW. (Included: 4 x SE 110/80 GGACQ)
